

We received an update today from the Project Engineer for the Beach Renourishment Project that Indian River County and the State of Florida have been working on in our area since November 1st.

They expect to be in front of the Driftwood Resort sometime in the next 3 weeks, which is the end of January or beginning of February if all goes as planned.

From what we have been told our beach access will be closed for approximately a month, depending on weather, while they work in front of the resort.

We apologize for any inconvenience this may cause, we have no control over this project or how long it will impact the beach in front of the resort.

Driftwood Management and Staff.
